Dehydrated Garlic Powder

Garlic is a hardy, bulbous, rooted, perennial plant with narrow flat leaves and bears small white flowers and bulbs. The compound bulb consists of 6 to 34 bulb, lets called 'cloves' which are surrounded by a common, thin, white or pinkish papery sheet. Garlic has a strong flavour and taste.

Garlic powder offers an ideal solution to the common problem of keeping fresh ingredients such as whole garlic cloves on hand. Unlike fresh cloves, garlic powder provides the seasoning you need for your dishes with the convenience of any other long-lasting item on your spice rack.

Simply put, garlic powder is made from ground, dehydrated garlic cloves.

Packaged this way, the shelf life of your garlic is extended exponentially, allowing you to always have garlic on hand to add it to your cooking.

Types of Dehydrated Garlic Powder

- Garlic Flakes
- Garlic Minced
- Garlic Granules
- Garlic Powder
 - Garlic powder grade 001
 - Garlic powder grade 002

Dehydrated Onion Powder

Onion powder is a processed form of dehydrated onion that can add the same flavor as fresh onions in a convenient manner. As a flavoring agent, onion powder is currently being used in a number of food and non-food products like-snacks, sauces, salads, soups, gravies, appetizers, seafood, meats, etc.

Although, it is slightly less pungent than fresh onions, even its little amount can replace the chopping of a whole medium-sized onion. Thus, it is quite easier to handle compared to fresh onions and saves a lot of time while cooking as no chopping is required. Onion powder is also easier to pack and unlike fresh onions does not require refrigerated storage.

Types of Dehydrated Onion Powder

- Dehydrated White Onion
 - White Onion Flakes (8 to 20 mm)
 - White Onion Chopped (3-5 mm)
 - White Onion Minced (1-3 mm)
 - White Onion Granules (0.1 to 0.3 mm, 0.3 to 0.5 mm)
 - White Onion Powder(90 to 110 mesh)
- Dehydrated Pink Onion
 - Pink Onion Flakes (8 to 20 mm)
 - Pink Onion Powder (90 to 110 mesh)
- Dehydrated Red Onion
 - Red Onion Flakes (8 to 20 mm)
 - Red Onion Powder (90 to 110 mesh)

Health Benefits:

- Packed with nutrients.
- Loaded with antioxidants.
- Contain cancer-fighting compounds.
- Help control blood sugar.
- May boost bone density.
- Have antibacterial properties.
- May boost digestive health.
- Easy to add to your diet.

Ginger Powder

Ginger of commerce is the dried underground stem of the herbaceous tropical plant grown as an annual. The whole plant is refreshingly aromatic and the underground rhizome, raw or processed, is valued as spice.

Ginger is a slender perennial herb, 30-50 cm tall with palmate branched rhizome bearing leafy shoots. The leafy shoot is a pseudo stem formed by leaf sheath and bears 8 to 12 distichous leaves.

Ginger Powder is a fine, brown powder which has been carefully processed and spray dried from fresh ginger root.

This product is used to add nutrition, flavor, and color to finished products. It can be used in the production of confectionery products, beverages, and is a popular ingredient in many Asian cuisines. It may also be used as a food preservative. This product is used in functional foods and nutrition applications.

Tomato Powder

Tomato powder is the perfect supplement to spruce up any dish in need of that classic tomato flavor. It's delicious with eggs, soups, or sauces, and even blended in smoothies. Tomato powder is made from dehydrated tomatoes and delivers a rich source of lycopene, vitamin C, and many other protective nutrients.

Now you can easily make flavors pop with that delicious tomato taste in many of your favorite foods! Try tomato powder sprinkled over pasta, pizzas, and baked potatoes for a classic tomato kick.

It's also delicious mixed with salad dressing, stews, chilis, and sauces. Try it stirred into dips or cream cheese and accompanied by chips and crackers. For hearty breads and baked goods with a natural tomato flavor, add 1/2 ounce of tomato flour for every 1 pound of regular flour. Create a rich tomato sauce for your recipes by mixing 4 parts of water with 1 part of tomato powder.
